

Announcements

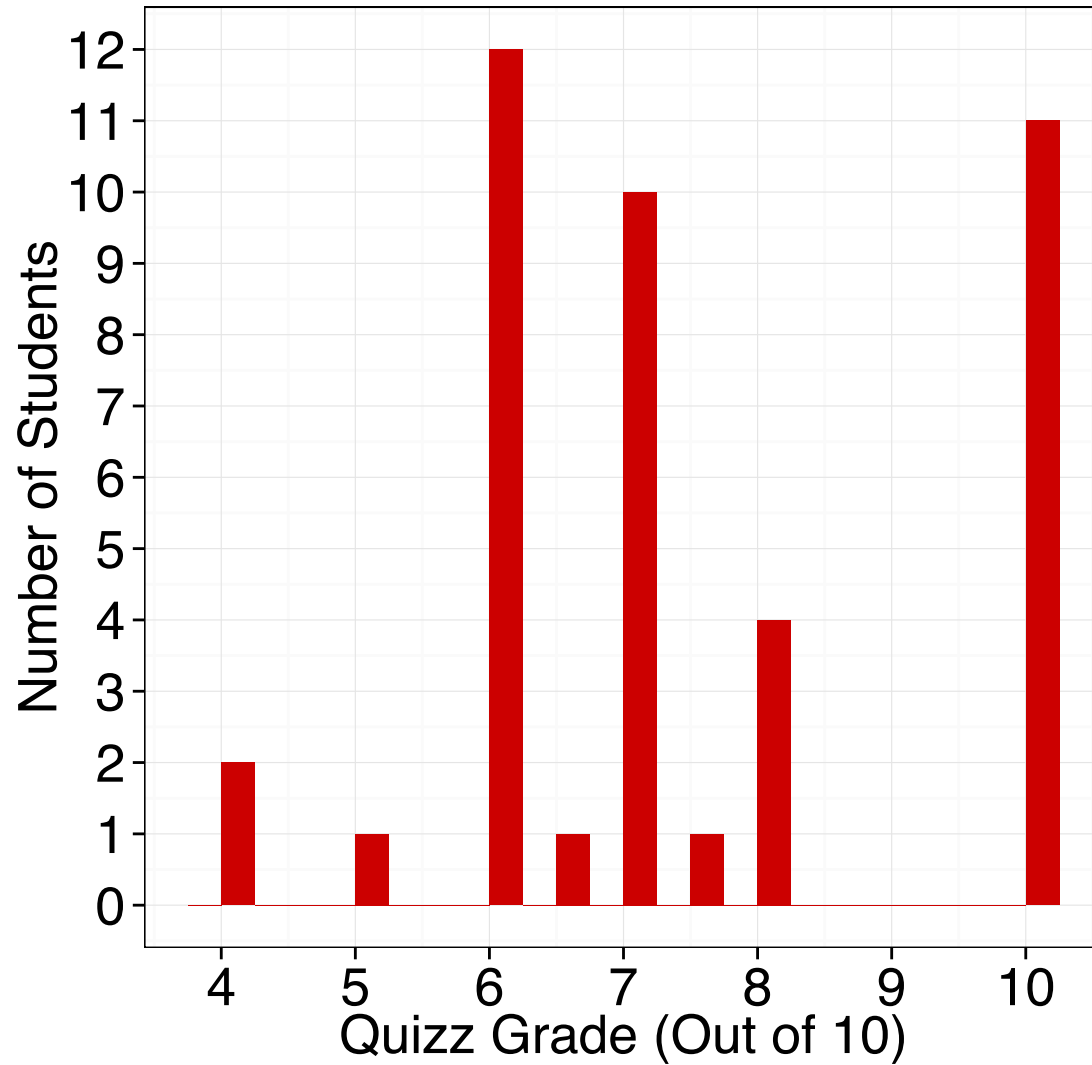

Friday 9/20

- Problem Set 3 posted; due Wed 9/25 in class.
- I responded to blog responses and posted grades
- Graded PSets in mailboxes
- Will announce time(s) for meeting with Dr. Heavner on Monday. Looking like Sept. 30. Will be **in place of** class on Oct. 7
- Midterm course evaluations on Monday

Quiz Confused a lot of you:

- Was very similar to problem #5 in Pset 2
- Make sure you understand homework
- Email me or come see me if you don't
- Time to think about your relationship with the course, and evaluate how you are interacting with the material.

Quiz 2

Problem Solving Strategies

Equilibrium

1. Draw a diagram
2. Use key words in the problem statement to figure out which type of equilibrium equation you should use
3. Write down the equations
4. Identify what you need to calculate
5. Identify what you know
6. Iterate, go back, and repeat steps 3 through 6
