

Exam

Announcements

- Blog response due tonight
- Next Pset due Oct. 23
- Next Lab due Oct 22
- Quizz next week on Friday—short reading quizz
—reading for next week posted on website
- Weekly quizzes on most Fridays from here on.

Rest of Course

- Drinking Water Treatment--design
- Biological aspect of natural water systems, and pollution--evaluation
- Wastewater treatment--design
- Risk assessment/Life Cycle Assessment– I hope.
- Check out schedule on website

My Research

- Life cycle assessment & economic modeling—current & need a student
- Anaerobic sewage treatment—small scale for underserved communities—should be started by next semester.

Interested in Doing Research?

- Credit or paid.
- During the semester and/or in the summer.
- Need to be willing to learn to code in Matlab—no experience with Matlab is fine.
- Start out modeling algae systems, but if you're interested in modeling a different energy system or product, we can do that!
